Holiday MOVIE PREVIEW

Okay, we know. Most of you are getting clammy and short of breath just thinking about the next *Star Wars* movie. But Luke Skywalker's return isn't the only thing to look forward to in next couple of months. Here's just a taste of the holiday treats unspooling in theatres between now and the end of the year

STAR WARS: THE LAST JEDI

We admit we got chills during the final scene of *Star Wars: The Force Awakens* as Rey (Daisy Ridley) met the grizzled Luke Skywalker (Mark Hamill) on the edge of a cliff on a mysterious planet. Now things get serious as Rey begins her training with the embittered Mr. Skywalker, while the injured Finn (John Boyega) recovers and then sets out on a secret mission with new character Rose Tico (Kelly Marie Tran). And while we welcome back Mark Hamill, we also get the chance to say a final goodbye to the late Carrie Fisher, who had finished filming her part before her sudden death in December 2016. Godspeed Leia, may the force be with you.

WHY WE'RE EXCITED
Luke is Back!

DID YOU KNOW?
In order to keep her role secret, new cast member Kelly Marie Tran told her family she was in Canada making an indie film.
