

DIGITAL SIGNAGE CINEMA LOBBY

LIGHT UP OUR LOBBIES

Larger than life and located in the highest-traffic areas, big, bold digital signage dominates our theatre lobbies and greets guests both before and after their movies, giving your message the star treatment in our cinemas.

Digital Posters

DIGITAL POSTERS

Our 84" Digital Posters are dynamic screens that display full-motion ads in bright, impactful HD quality. The five minute loop keeps the content fresh and timely, ensuring as many eyes as possible see your ad, whether it runs from coast to coast or in a local execution.

DIGITAL LOBBY SCREENS

Our network of in-lobby digital signage surrounds guests with movie content and ads running in a 10-minute loop at all angles throughout the lobby to ensure maximum visibility. When our lobby screens change colour, the entire lobby changes colour. They make your brand hard to miss!
